**Introduction and Background**

These Operating Procedures replace the Operating Procedures issued by the Inspection Panel in 2014 and the annex added in February 2016. They provide details on how the Inspection Panel operates, and aim to make the process user-friendly, transparent, predictable and up-to-date.

The Panel was established by the Board of Executive Directors (referred to as the “Board” or the “Executive Directors”) of the World Bank (referred to as the “Bank”) through IBRD\(^1\) Board Resolution No. 93-10 and an identical IDA\(^2\) Board Resolution No. 93-6 on September 22, 1993. The 1993 Resolution was reviewed twice by the Board, in 1996 (referred to as “the 1996 Review”) and again in 1999 (referred to as “the 1999 Clarification”). At the conclusion of its 2017-2020 review of the Inspection Panel, the Board on September 8, 2020, added new functions to the Panel through IBRD Board Resolution 2020-0004 and an identical IDA Board Resolution 2020-0003 (collectively referred to as the “2020 Panel Resolution”). The 2020 Panel Resolution consolidated text from the 1993 Resolution and the 1996 and 1999 reviews. In approving the 2020 Panel Resolution, the Board reaffirmed the importance of the Panel’s function, independence and integrity.

The 2020 Panel Resolution sets forth the governing framework of the Panel. It can be found [here](#).

At the same time that the Board approved the 2020 Panel Resolution, it established the World Bank Accountability Mechanism (AM) through IBRD Board Resolution No. 2020-0005 and an identical IDA Board Resolution No. 2020-0004 (the “AM Resolution”). The AM comprises two constituent parts: the Panel to carry out compliance reviews and a Dispute Resolution Service (DRS) to facilitate a dispute-resolution process. The AM has its own operating procedures. The complete text of the AM Resolution can be found [here](#).

Particularly, these Operating Procedures:

a. Specify how the Panel determines whether to register a complaint and receive a formal response from the Management of the Bank.

b. Specify what factors the Panel will assess prior to making its recommendation to the Board on whether an investigation is warranted.

c. Describe how the Panel’s compliance-review process interacts with the dispute-resolution process carried out by the DRS.

d. Explain the sharing of the Panel’s Investigation Report with Requesters once it is submitted to the Board.

e. Detail the process for the Panel to propose for Board approval independent risk-based proportionate verification of Management Action Plan (MAP) implementation.

f. Describe how the Panel process fosters interaction between its different stakeholders.

g. Describe ways in which outputs from the Panel process contribute to institutional learning, including through advisory reports in the form of lessons from its cases.

---

\(^{1}\) International Bank for Reconstruction and Development: established in 1944, IBRD is the lending-arm of the World Bank which serves middle-income countries with capital investment and advisory services.

\(^{2}\) International Development Association: established in 1960, IDA is the part of the World Bank that helps the world’s poorest countries.
In the event of any potential inconsistency between these Operating Procedures and the 2020 Panel Resolution, the 2020 Panel Resolution prevails.

The text below is organized in four sections:

Section 1 provides a brief overview of the role of the Panel and key features of the Panel process.

Section 2 explains how people who feel negatively affected by a project supported by the Bank may submit a complaint to the Panel to request an investigation into their concerns.

Section 3 describes the main phases of the Panel process in response to a Request for Inspection (see Figure 1), and explains the roles and responsibilities of the Requesters, the Panel, Management of the Bank (referred to as “Management”), the Board, and the borrowing country (referred to as the “Borrower”) in each phase. These phases include:

a. Receipt of a Request for Inspection and subsequent determination on whether to register the Request.

b. Confirmation of technical eligibility of the Request and recommendation on whether an investigation is warranted – the eligibility phase.

c. Referral to the DRS, when an investigation is approved, and if agreed to by the Requesters and Borrower.

d. Investigation of claims raised by the Request if dispute resolution is not agreed or is not successful – the investigation phase.

e. Actions following an investigation, including the sharing of the report with the Requesters.

f. Verification of the implementation of Management Action Plans.

Section 4 describes measures to make the Panel better known in borrowing countries, including outreach activities, and to facilitate learning for the institution based on lessons drawn from Panel cases through its advisory function.
1 THE PANEL AND THE PANEL PROCESS

1.1 The Panel’s role

1. The Inspection Panel serves as an independent forum to provide accountability and recourse for people affected by IBRD and IDA-financed projects. They can bring their concerns to the Panel in the form of a written complaint. A complaint is referred to as a “Request for Inspection” and those who submit a Request are referred to as “Requesters”. When it carries out an investigation, the Panel reports to the Board on whether the harm, as alleged by the Requesters, has totally or partially resulted from failure of the Bank to comply with its policies and procedures, including social and environmental safeguard policies, during design, appraisal and implementation of Bank-financed projects (also where the Bank is alleged to have failed in its follow-up on the Borrower’s obligations under loan agreements with respect to such policies and procedures).

2. The Inspection Panel serves two important accountability functions:
   a. It provides a forum for people, including those who are often poor and vulnerable, to seek recourse for harm which they believe results from Bank-supported operations. As such, the Panel is a “bottom-up” or citizen-driven accountability mechanism that responds to grievances and demands for redress. This promotes more inclusive and sustainable development by giving project-affected people a greater voice in Bank-financed projects that impact them.
   b. It provides an independent and impartial assessment of claims about harm and related non-compliance with Bank policies as a check-and-balance for the Board and other concerned stakeholders. This contributes towards institutional learning and helps to improve development effectiveness of World Bank operations.

1.2 The Panel process

3. The Panel’s governing framework outlines a phased and interactive process involving actions by the Requesters, the Panel, Management, the Board and the World Bank Accountability Mechanism Secretary (AMS), and also includes consultation with the Borrower. The process includes the main phases detailed in Figure 1 and is referred to as the “Panel process”.

4. The Panel process is part of a wider set of remedies to address grievances stemming from Bank-supported operations; such remedies may be available within a project itself, be part of a borrowing country’s own systems, or be part of a wider set of options available within the Bank to respond to grievances at various levels. In addition to the Panel process, the DRS facilitates a voluntary and independent dispute resolution option for Requesters and Borrowers in the context of Requests for Inspection to the Panel. The interaction between the Panel and DRS processes is explained later in these procedures.

5. The following are some key features of the Panel process of importance to people who consider making use of this accountability mechanism:
   a. Accessibility. The Panel is accessible to people who are concerned about actual or potential harm resulting from Bank operations. Any two or more affected persons can submit a Request for Inspection to the Panel; they will be treated fairly, and their identities
will be kept confidential if requested.

b. **Independence and impartiality.** The Panel is independent from Bank Management and reports directly to the Board, and conducts its work impartially.

c. **Informing the Bank.** A key requirement is that the issue of concern to the Requesters is brought to the attention of Bank Management to seek a resolution to the concern, prior to the submission of a Request.

d. **Focus on the Bank.** The Panel process focuses on the Bank. The Panel does not investigate other parties, such as the Borrower. The process places a responsibility on Bank Management to address the Panel’s findings resulting from its investigations.

e. **Broad interaction.** The Panel interacts with all stakeholders involved during all stages of the process, as consistent with its basic principles of independence and impartiality.

f. **Solution-seeking.** The Panel process provides opportunities for constructive interaction between Bank Management and Requesters to address and resolve problems at different stages of the process.

g. **Transparency.** The Panel process promotes transparency in Bank operations through publication of its reports.

### 1.3 The Panel’s organization

6. The Panel is housed within the World Bank Accountability Mechanism. While the Accountability Mechanism Secretary is the head of the Accountability Mechanism, the Panel Chairperson is the head of the Inspection Panel, and the Panel Members report directly to the Board. The Board’s Committee on Development Effectiveness (CODE) is designated as the main interlocutor for the Panel.

7. The Panel is composed of three Members of different nationalities who serve non-renewable five-year terms. Members of the Panel are selected based on their ability to deal thoroughly and fairly with the Requests brought to them, their integrity and their independence from the Bank’s Management, and their exposure to development issues and to living conditions in developing countries. Members of the Panel may not be employed by the World Bank Group following the end of their service on the Panel. In addition, staff of the World Bank Group, including Executive Directors and their advisors, can only be appointed as Panel Members two years after the end of their service with the World Bank Group. The Members of the Panel elect a full-time Chairperson of the Panel who works at Bank headquarters.

### 1.4 Role of Accountability Mechanism Secretary with respect to the Inspection Panel

8. The Inspection Panel will continue to carry out its compliance review functions independently, in accordance with the 2020 Panel Resolution and these Operating Procedures. In order to ensure the continued independence of the Inspection Panel's compliance function, the Accountability Mechanism Secretary’s role with respect to the Inspection Panel is limited as follows:

   a. Functions assigned to the Inspection Panel are performed independently by the Inspection Panel including reporting to Executive Directors on compliance matters.

   b. In exercising their duties, the Inspection Panel Members and Chairperson will

---

*Inspection Panel Commented: The information that follows comes from the AM resolution, paragraph 8.*
coordinate with but not be subject to the supervision of the Accountability Mechanism Secretary.

c. Accountability Mechanism staff assigned to the Inspection Panel report to the Accountability Mechanism Secretary on administrative matters but to Inspection Panel Members on technical matters, such as the compliance investigation itself, the composition of compliance teams and their mission travel, and the selection of consultants.

d. The Accountability Mechanism Secretary consults with the Inspection Panel Chairperson on the appointment and performance reviews of technical and administrative staff of the Inspection Panel and works with the Inspection Panel Chairperson on the allocation and oversight of the Inspection Panel budget.

e. The Accountability Mechanism Secretary ensures that information disclosed in a dispute resolution process is not used in a later compliance investigation.

1.5 Decisions of the Panel

9. All decisions of the Panel on procedural matters, its recommendations to the Board on whether to proceed with the investigation of a Request, its findings reported to the Board, and its recommendations to the Board on independent verification of MAP implementation shall be reached by consensus by the three Panel Members and, in the absence of a consensus, the majority and minority views shall be stated.

- The Panel notifies the public that it has received a Request for Inspection through a Notice of Request on its website.
- Within 15 business days after receiving the Request, the Panel decides whether to issue a Notice of Registration or a Notice of Non-Registration.
- Bank Management responds within 21 business days after registration.
- Panel’s field visit if needed.
- Within 21 business days after receiving the Management Response, the Panel recommends to the Board of Executive Directors whether an investigation is justified.
- Board decision on Panel recommendation (usually within 10 business days).
- If an investigation is approved, the AMS offers DR to the Requester and the Panel.
  - If the parties do not choose DR or DR is unsatisfactory, the Panel commences the investigation.
  - Panel’s investigation visit.
  - The Panel submits its Investigation Report to the Board of Executive Directors, which is to complete it within 6 months after proposing the Investigation Plan.
- The Panel’s Investigation Report is shared with Requesters on a confidential basis.
- Bank Management Report and Recommendations (written within 6 months after receiving the Investigation Report).
- Board of Executive Directors’ decision on approval of Management Action Plan (MAP).
- Based on risk-based protocols and methodologies, the Panel, in consultation with GAI, may recommend for Board approval verification of MAP implementation.
- With approval, the Panel verifies the implementation of Management actions that address Panel findings. GAI verifies Management actions addressing the Bank’s governance.
- At the end of the process, the Panel submits a verification report to the Board.

The main phases of the Panel process involve actions by the Panel, Management, the people who submitted the complaint, the Board and the AMS, and includes consultation with the Borrower.
Definitions

Bank Management or Management. World Bank as an institution involved in the design, appraisal and/or implementation of Bank-financed projects, as distinct from the Board of Executive Directors.

Bank-financed project. Any IBRD/IDA project or program approved by the Executive Directors or under consideration by Bank Management. The Panel’s governing framework states that the word “project” has the same meaning as it generally has in Bank’s practice, and includes operations under consideration by Bank Management as well as those already approved by the Executive Directors. Requests for Inspection (see definition below) may relate to projects financed by an investment loan or credit; or programs funded through development policy lending (formerly known as structural adjustment operations); or projects financed through a trust fund administered by the Bank (e.g., Global Environmental Facility-funded projects); or projects/programs for which IBRD or IDA has provided only a guarantee (not actual loan/credit); or projects/programs co-financed with other International Financial Institutions; or Program-for-Results operations. This is not a restrictive list and there might be other financing instruments of IBRD/IDA that might be subject to an Inspection Panel process.

Board. The Board of Executive Directors of the IBRD and IDA (also referred to as Executive Directors).

Borrower. In these procedures the borrowing or guaranteeing country, or potential Borrower or guaranteeing country, project or implementing agency, the trustee, etc., as the context requires.

Business days. Days on which the Bank is open for business in Washington, D.C.

Dispute Resolution Service. Facilitates a voluntary independent dispute resolution option for Requesters and Borrowers in the context of complaints to the Panel once an investigation has been approved. It operates as part of the World Bank Accountability Mechanism.

Operational policies and procedures. Bank’s Operational Policies, Bank Procedures, and Operational Directives, and similar documents issued before these series were started, and do not include Guidelines and Best Practices and similar documents or statements. Operational policies and procedures include not only the Bank’s safeguard policies, but also all other policies and procedures applicable to the design, appraisal and implementation of a Bank-financed project. The Bank’s operational policies and procedures are subject to revisions, and new types of documents may be considered relevant for the Panel process.

Panel process. This term refers to the phased process that involves the Panel, the Management of the Bank, the Board, the DRS, and the people who have submitted a complaint, as depicted in Figure 1.

Request for Inspection (also referred to as Request or complaint). A written complaint submitted to the Inspection Panel raising issues of harm resulting from alleged non-compliance with Bank operational policies and procedures.

Requesters. Refers to signatories to a Request. In these procedures “Requesters” means those who have submitted a Request.

World Bank or Bank. These terms refer interchangeably to IBRD and IDA.

World Bank Accountability Mechanism. Established by the Board on September 8, 2020, it houses the Inspection Panel and the Dispute Resolution Service.

World Bank Accountability Mechanism Secretary. Heads the Accountability Mechanism.
2 **PREPARATION AND SUBMISSION OF A REQUEST FOR INSPECTION**

2.1 **Who can submit a Request for Inspection and when**

10. Persons seeking access to the World Bank Accountability Mechanism in all cases first file a Request for Inspection to the Inspection Panel.

11. A Request for Inspection may be submitted to the Panel by:
   a. two or more people with common interests and concerns who claim that they have been or are likely to be adversely affected by a Bank-financed operation, and who are in the country where the Bank-financed project is located; or
   b. a duly appointed local representative acting on behalf of affected people; or
   c. in exceptional cases, a non-local representative where the party submitting the Request contends that appropriate representation is not locally available and the Board so agrees at the time it considers the Request; or
   d. an Executive Director of the Bank in special cases of serious alleged violations of the Bank's policies and procedures; or
   e. the Executive Directors acting as a Board. The Resolution provides that the Board, at any time, may instruct the Panel to conduct an investigation.3

12. A Request may be submitted starting at the stage at which a project is under consideration by Management. For projects approved by the Board before September 8, 2020, the Request cannot be submitted after the closing date of the loan financing the project or after 95 percent or more of the loan has been disbursed. For projects approved on or after September 8, 2020, the Request cannot be filed more than 15 months after the closing date of the loan.

2.2 **Contents of a Request for Inspection**

13. A Request for Inspection should contain, in substance, the following information:
   a. **Harm.** A description of how the Requesters believe that their rights or interests may be adversely affected by a Bank-financed project, and the material adverse effects (harm) that they believe they are suffering, or are likely to suffer as a result.4
   b. **The project.** A description of the Bank-financed project or proposed project5 as far as it may be known to the Requesters, stating how, in their view, the harm suffered or likely to be suffered by them is linked to the project activities that the Requesters believe may be relevant to their concerns.
   c. **Actions or omissions of the Bank.** A description of actions or omissions of the Bank

---

4 Past cases of the Inspection Panel have addressed different types of harm or potential harm to people or the environment. These have included harm to: people and environment resulting from infrastructure projects or from involuntary resettlement in such projects (e.g., by a dam, road, pipeline, landfill, or other infrastructure project); indigenous peoples, their culture, traditions, lands tenure and development rights; cultural property, including sacred places; and the environment and natural habitats (e.g., air and water pollution, stress on water supplies, adverse impacts on wetlands, forests, fisheries, protected areas, etc.). Panel cases have also addressed gender-based violence, peoples’ rights and interests related to consultation, participation and access to information for affected peoples and communities.
5 See Definitions Box for definition of the term ‘Bank-financed project’.
with respect to the design, appraisal and/or implementation of the Bank-financed project (including situations where the Bank is alleged to have failed in its follow-up on the Borrower’s obligations under loan agreements with respect to such policies and procedures). Requesters are not required to mention or quote specific Bank operational policies and procedures, but if known, may elaborate upon how that action or omission is a result of a failure by the Bank to follow its operational policies and procedures, including, but not limited to, the Bank’s safeguard policies.

d. **Informing the Bank.** A Request should describe steps taken or efforts made to bring the issue to the attention of Bank staff (if possible, with dates, people contacted, and copies of the correspondence with the Bank), and a statement explaining why, in the Requesters’ view, the Bank’s response was inadequate.

14. If some information cannot be provided at the time of submitting the Request, an indication should be included as to when such information may be made available to the Panel.

2.3 **How can a Request for Inspection be submitted**

15. **Format.** All Requests must be submitted in writing, but no specific form or format is necessary. The Request should be dated and signed by the Requesters or their representative. Requests with original signatures, and any supporting documentation, may be sent via mail or may also be submitted electronically. Requesters may ask for confidentiality in the handling of the Request (see paragraph 19). For additional guidance, a Requester may wish to refer to the Inspection Panel and World Bank Accountability Mechanism websites.

16. **Language.** Requests may be submitted in the Requesters’ local language. The working language of the Panel is English. If Requests are not in English, the time needed to translate and ensure the accuracy of the translation may add some days to the Panel’s initial determination of whether to register the Request.

17. **Representatives.** If the Request is submitted by a local representative of the affected people, s/he must provide written evidence that s/he is acting on behalf of the people submitting the Request. Non-local representatives are also allowed in exceptional cases where the party submitting the Request contends that appropriate representation is not locally available and the Board so agrees at the time it considers the Request for Inspection. In such cases the Panel will bring the issue to the attention of the Board. The Request must include an explanation of the reasons for why there is no available representation in the country where the project is located or where the harm has or may occur.

18. **Supporting information.** If available, the Requesters may include any other evidence that documents their concerns.

19. **Confidentiality.** If Requesters wish that their names and personal information remain confidential, the Panel will keep all such information strictly within the Panel. However, for purposes of correspondence the name of a contact person should be provided.

20. **Submission of the Request.** Requests may be submitted in hard copy by mail or electronically to accountability@worldbank.org. Requests by mail should be sent to the
Inspection Panel, Mail Stop MC 10-1007, 1818 H Street, N.W., Washington, D.C. 20433, U.S.A. or to the Bank’s country office in the country where the project is located. In the latter case, the country office shall, after issuing a receipt to the Requester, forward the Request to the Panel unopened through the next pouch.

21. **Questions and additional information.** People who have questions about the Inspection Panel process or the procedures for submitting a Request for Inspection may contact the Inspection Panel, which will provide information about the relevant requirements. Such inquiries may be made by mail or electronically at the addresses indicated above, or by direct contact at tel. +1-202-458-5200. Additional information about the Inspection Panel and its process is available on the Panel and World Bank Accountability Mechanism websites.
3 PANEL PROCESS FOR HANDLING REQUESTS

22. As described in more detail in this section, the Panel process may involve the following main phases:
   a. Receipt of a Request for Inspection and subsequent determination on whether to register the Request.
   b. Confirmation of technical eligibility of the Request and recommendation on whether an investigation is warranted – the eligibility phase.
   c. Referral to the DRS, when an investigation is approved, and if agreed to by the Requesters and Borrower.
   d. Investigation of claims raised by the Request if dispute resolution is not agreed or is not successful – the investigation phase.
   e. Actions following an investigation, including the sharing of the report with the Requesters.
   f. Verification of the implementation of Management Action Plans.

3.1 Receipt of a Request for Inspection and subsequent determination on whether to register the Request

Panel actions

Initial review and verification of admissibility

23. The Panel process formally begins when the Panel receives a Request for Inspection. The date of receipt of the Request gets recorded through a Notice of Receipt on the Panel website.

24. The Panel promptly makes an initial review to check that the Request is submitted by a qualified party as stipulated in Section 2.1 above, and contains the basic information stipulated in Section 2.2.

25. The Panel may ask the Requesters for further information. The Panel may also request information and clarification about the Project from Management.

26. The Panel confirms the following as a basis for registration:
   a. The Request is not frivolous, absurd or anonymous.
   b. The project/program, which is the subject of the Request, appears to be supported, or is being considered for support, at least in part, by the Bank.
   c. At least one component of the project/program which is the subject of the Request can be plausibly linked to the alleged harm.
   d. For projects approved by the Board before September 8, 2020, the loan has not been closed or 95 percent or more disbursed. For projects approved on or after September 8, 2020, 15 months have not yet passed from the date the related loan has been closed.
   e. The subject matter of the Request does not concern issues of procurement, which is the process of acquisition of goods, work and services required for a project.
   f. The Request is not the same as a previous Request on which the Panel has already
made a recommendation. If the Request raises similar matters as a previous Request, then the new complaint must present new evidence or circumstances related to the Requesters’ concerns.

27. On the basis of this review, within 15 business days of receipt of the Request, the Panel decides whether: (a) to ask for additional information from Requesters; (b) to issue a Notice of Registration; or (c) to find the Request not to be admissible. The decision is recorded on the Panel website, and the Panel will keep Requesters, Management and the Borrower (through the Executive Director representing it) informed on next steps in its process.

Ask for additional information

28. If the Panel determines that the Request is insufficient or unclear in meeting the requirements for registration, it may ask the Requesters to supply further information. In this case, the Panel sends an acknowledgement to the Requesters that the Panel has received the Request, and specifies what additional information is required. This additional information may be considered part of the Request.

Issue a Notice of Registration

29. If the Panel determines that the Request meets the basic requirements for registration, the Panel sends a Notice of Registration to the Requesters, the Board, the Bank President (“President”) and the Borrower (through the Executive Director representing it). The Panel also transmits to the President, as head of Management, a copy of the Request itself with accompanying documentation, if any. The Panel also notifies the Accountability Mechanism Secretary for information only. If Requesters have asked that their identities be kept confidential, no information that may identify them is disclosed in the Notice of Registration and in any accompanying documentation transmitted to Bank Management and the Board, as well as to the Borrower (through the Executive Director representing it).

30. The Notice of Registration triggers the requirement of a response to the Request by Bank Management within twenty-one business days.

31. The Notice of Registration:
   a. Records the date of receipt of the Request and the date of its registration.
   b. Presents the Requesters and their names, or that of their representative, unless confidentiality is requested.
   c. Includes a brief description of the project, including its location.
   d. Summarizes the concerns of and claims by the Requesters.
   e. Includes a summary description of steps that have been taken to bring the issue to the attention of the Bank prior to approaching the Panel, as explained by the Requesters.
   f. May include other relevant information in particular with respect to efforts made to address the issues raised in the Request.
   g. Specifies the due date of the Management response.

Inspection Panel Commented: AM Resolution. paragraph 7c.
Request considered not admissible

32. If the Panel finds, on the basis of the initial review or after seeking additional information, that the Request does not meet one or more of the criteria outlined in paragraphs 24 and 26 above, it will issue a Notice of Non-Registration and will notify the Board, the Bank President, and the Requesters. The Panel also notifies the Accountability Mechanism Secretary.

3.2 Confirmation of technical eligibility of the Request and recommendation on whether an investigation is warranted – the eligibility phase

33. This phase of the Panel process begins when the Panel sends a Notice of Registration to the Board and Management, as well as to the Borrower (through the Executive Director representing it). In this phase, Management is required to prepare a response to the Request for Inspection (called the “Management Response”). The main outcome of this phase is the Board’s approval, or non-approval, of the Panel recommendation of whether the matters presented in the Request warrant an investigation. The steps in this second phase of the Panel process are elaborated below.

Management actions

34. Management, within twenty-one business days after receiving the Notice of Registration, submits to the Panel the Management Response. After the Panel receives the Management Response, it enters the date of receipt on the Panel website. The time limit for the Management Response is strictly observed except in circumstances clearly beyond the Management’s control. In practice, in such situations, and after consulting with the Panel, Management seeks Board approval for any proposed extension of the deadline.

35. This Response, in line with the governing framework of the Panel process, provides:
   a. Management’s view of whether the claims raised by the Requesters with respect to harm or potential harm are attributable, at least in part, to Management’s own actions or omissions in complying with the relevant policies and procedures, or are exclusively attributable to the Borrower or to other factors external to the Bank.
   b. Evidence that Management has complied with the relevant Bank operational policies and procedures, or that it intends to comply with the policies and procedures relevant to the Requesters’ claims.

36. As and when appropriate, the Management Response may include a description of measures to address the concerns raised in the Request that have been implemented or are being planned.

Panel actions

37. Once it receives the Management Response, the Panel has twenty-one business days to decide whether to recommend an investigation to the Board. The Panel’s recommendation is presented in a report called the “Report and Recommendation” (or “Eligibility Report”). The time limit for this report is strictly observed except for reasons clearly beyond the Panel’s
control. In such cases the Panel consults with Management and will request the Board for an extension of the period in which it presents its report.

38. During the twenty-one day period, a Panel team normally conducts a field visit to the project area to help confirm the technical eligibility of the Request and inform the Panel’s recommendation to the Board. During the field visit, the Panel team meets with the Requesters, and briefs them orally about relevant information in the Management Response, including any proposed remedial actions, as relevant to the Panel’s recommendation to the Board. Bank staff of the country office, officials of the implementing agency and other interested parties may provide relevant information. The Panel also meets with representatives of the Borrower and the Executive Director at the Board representing the country or countries where the project is planned or is being implemented to seek further views and inputs that may be important to inform the Panel’s decision on whether to recommend an investigation. The Borrower is provided with information about the Panel and its process.

39. In order to make an informed recommendation, the Panel may also request further clarification from Management or from the Requesters. Such a request for information does not affect the requirement of the Panel to submit its Report and Recommendation to the Board within twenty-one days after receipt of the Management Response.

The Panel’s confirmation of technical eligibility

40. As set forth in the 2020 Panel Resolution, a basic responsibility of the Panel during this phase of its process is to confirm whether the six technical eligibility criteria (see paragraphs 13-15 and 29 of the 2020 Panel Resolution) are met. Some of these criteria will have been fully or partly reviewed during the receipt and registration phase of the Panel process (see Section 3.1 above). The Panel’s confirmation is guided by the following:

Criterion (a): “The affected party consists of two or more persons with common interests and concerns who are in the Borrower’s territory.”

Criterion (b): “The Request asserts in substance that a serious violation by the Bank of its operational policies and procedures has or is likely to have a material adverse effect on the Requester.” The Panel confirms that the Request includes a description of the harm or potential harm (material adverse effects) that, according to Requesters, is the result of a serious violation by the Bank of its policies and procedures.

Criterion (c): “The Request asserts that its subject matter has been brought to the attention of Management and that, in the Requesters’ view, Management has failed to respond adequately demonstrating that it has followed or is taking steps to follow the Bank’s policies and procedures.” The Panel confirms that, prior to the submission of the Request, steps were taken to bring the concerns raised in the Request directly to the attention of Bank Management, and that Management had a reasonable opportunity to respond. Requesters need not approach the Bank themselves, but the Request should describe what steps and actions were taken to make sure that the issues included in the Request were brought to the attention of the Bank, as well as Management’s response to
these actions. Requesters can ask to maintain their confidentiality.

Criterion (d): “The matter is not related to procurement.” The Panel’s confirmation is based on Bank policy OP/BP 11.00 which refers to procurement as “the procurement by World Bank borrowers of all goods, works, non-consulting services, and consulting services required for the Project and financed in whole or in part out of the proceeds of Bank loans”.

Criterion (e): “The related loan has not been closed or substantially disbursed.” At the time of receipt of the Request, the Panel confirms that for projects approved by the Board before September 8, 2020, the related loan has not been closed or 95 percent or more disbursed. For projects approved on or after September 8, 2020, the Panel confirms that 15 months have not yet passed from the date the related loan has been closed.

Criterion (f): “The Panel has not made a recommendation on the subject matter or, if it has, that the Request does assert that there is new evidence or circumstances not known at the time of the prior Request.” If a Request raises concerns about the same project and substantive matter as in a previous Request about which the Panel already made a recommendation on whether an investigation was warranted, the Panel confirms that new facts or circumstances are submitted to the Panel that distinguish the new Request from the previous one.

41. The Panel confirms the technical eligibility of the Request independently of any views that may be expressed by Management.

The Panel’s recommendation on whether an investigation is warranted

42. After confirming the technical eligibility of the Request, the Panel further assesses the Request and Management Response and exercises its judgment in deciding whether the matters presented in the Request warrant an investigation. The Panel may decide not to recommend an investigation even if it confirms that the technical eligibility criteria for an investigation are met, based on the considerations indicated in paragraph 44 below. The Panel explains the basis for its decision in its report.

43. The Panel prepares its recommendation on the basis of:
   a. The information in the Request, Management Response, and any other documents the Panel may have asked for and received from the Requesters, Management, the Borrower, as well as relevant third parties.
   b. Information gathered during the field visit in discussions with Requesters, Management and staff of the Bank’s country office, national and local authorities, the implementing agencies and other interested parties.
   c. Information gathered in interactions with the Executive Director representing the country.

44. In making its recommendation, the Panel takes into account the following:
   a. Whether there is a plausible causal link between the harm alleged in the Request and
the Project.
b. Whether the alleged harm and possible non-compliance by the Bank with its
operational policies and procedures may be of a serious character.
c. Whether Management, in the Panel’s view, has dealt appropriately with the issues
raised in the Request and demonstrated clearly that it has followed the required
policies and procedures, or Management acknowledged that it did not comply with
relevant policies and procedures.
d. Whether Management has provided a statement of specific remedial actions, and
whether, in the judgment of the Panel and taking into account the view of the
Requesters, these proposed remedial actions may adequately address the matters
raised by the Request.

45. The Panel may not include, in its Report and Recommendation, an assessment of the
Bank’s compliance with its policies and procedures or its resulting harm to the Requesters, nor
may it make any definitive assessment of the existence of a serious failure by the Bank that has
caused harm. The Panel may make these assessments in an Investigation Report.6

Contents of the Panel’s Report and Recommendation

46. The Panel’s confirmation of the technical eligibility of the Request for Inspection, and
its assessment of whether to recommend an investigation, are set forth in the Panel’s Report and
Recommendation to the Board. This Report also includes a summary of the claims of the
Request and the Management Response. The Panel’s assessment is based on the Request and
Management Response and additional information and observations, including the Borrower’s
views, as may be needed to explain the justification for the Panel’s recommendation on whether
or not an investigation is warranted.

47. The Report concludes with the Panel’s recommendation to the Board, which includes an
explanation of its basis. If the Panel recommends an investigation, it may specify the intended
focus of the proposed investigation. Not all claims raised in the Request may warrant an
investigation.

48. In addition, the Report and Recommendation will be accompanied by:
a. The Request in full and, where applicable, any other relevant information provided
   by the Requesters supplementing the Request.
b. The Management's Response in full, and, where applicable, any clarifications
   provided.
c. Any other documents relevant to the Panel’s analysis.

Submission of the Panel’s Report and Recommendation

49. The Panel’s Recommendation, which is included in its Report and Recommendation, is

---
6 In a limited number of cases, the Panel has deferred its recommendation on whether to investigate the matters raised by the Request, and proposed to the Board a time period for such a deferral. The purpose of such deferrals has been to provide additional time for Management and Requesters to seek a solution to the matters raised, taking into account specific remedial actions presented by Management.
submitted to the Board for approval.

**Board decision**

50. The Panel’s Recommendation is circulated to the Board for approval within the normal distribution period, under an absence of objection procedure.\(^7\) If an Executive Director asks for a discussion, the decision by the Board will await the outcome of the Board meeting to be scheduled. If the Panel so recommends, the Board, according to the 2020 Panel Resolution, will authorize an investigation without making a judgment on the merits of the claimants’ Request, and without discussion, except with respect to the technical eligibility criteria (see paragraph 40 above).\(^8\)

**Notification and public disclosure**

51. The Panel notifies the Requesters that the Report and Recommendation has been sent to the Board. Within two weeks of the Board’s decision, the Panel informs the Requesters of the Board’s decision and sends the Requesters a copy of the Panel’s Report and Recommendation. At this time, Management and the Panel also make the full Report and Recommendation (including the Request and Management Response) publicly available (barring any confidential information). Translations of the Panel’s Report and Recommendation, the Request and Management Response are also made available on the Panel’s website.

3.3 **Referral to the DRS, when an investigation is approved, and if agreed to by the Requesters and Borrower**

52. Following the authorization of an investigation, the Accountability Mechanism Secretary offers an opportunity for dispute resolution to the Requesters and the Borrower (the Parties) in accordance with Part III of the Accountability Mechanism Resolution. No later than 30 business days after authorization of the investigation, the Accountability Mechanism Secretary informs the Board, the Panel and Management of the Parties’ decision.

53. The Panel will not initiate an authorized investigation until it is informed by the Accountability Mechanism Secretary of the Parties’ decision. If the Parties do not agree to engage in a dispute resolution process, the Panel will commence the investigation. If, however, the Accountability Mechanism Secretary indicates that the Parties agree to pursue dispute resolution, the Panel will hold its compliance process in abeyance until the dispute resolution process is concluded in accordance with the Accountability Mechanism Resolution. The Panel will have no role in dispute resolution and will not opine on policy compliance in dispute resolution or the outcome of the dispute resolution process.

54. Upon receiving a report from the Accountability Mechanism Secretary that a dispute resolution process has concluded (as defined in paragraph 13 of the Accountability Mechanism Resolution), the Panel will take one of the following steps: (i) If the Accountability Mechanism Secretary informs the Executive Directors that agreement has not been reached by the Parties

---

\(^7\) This period is currently 10 business days.

\(^8\) 2020 Panel Resolution, paragraph 29.
within the stipulated period, the Panel will commence the investigation as set forth below; (ii) If the Accountability Mechanism Secretary informs the Executive Directors that the Parties have reached agreement and signed a Dispute Resolution Agreement, the case will be considered closed. The Panel will issue a memorandum closing the case and take no further action with respect to the Request.

Figure 2: The Interaction between the Panel & DR Processes

* If the Panel recommends no investigation and the Board approves, the process is completed.

3.4 Investigation of claims raised by the Request if dispute resolution is not agreed or is not successful – the investigation phase

55. This section describes some of the key steps and outcomes of the investigation phase of the Panel process. It also addresses the organization and methodology of the investigation and the timeline for completing investigations.

Panel actions

Organization of the investigation

56. When an investigation is approved and after the Accountability Mechanism Secretary informs the Executive Directors and the Panel that: (i) the Parties do not agree to engage in a dispute resolution process or (ii) a dispute resolution process has taken place but an agreement was not reached by the Parties within the stipulated period, the Panel will commence the investigation. The Panel Chairperson will designate a Panel Member as the Lead Inspector and promptly put in place an Investigation Team, including a lead staff member for the investigation.
During the investigation, the Panel Investigation Team:
a. Prepares and gathers relevant materials needed to initiate the investigation process.
b. Prepares an investigation plan which includes: the key questions/issues the investigation is expected to address and the timeline of the investigation. The investigation plan is made publicly available and is posted on the Panel website.
c. Initiates and organizes all operational elements needed for the investigation, including identification of expert consultants and preparations for the field visit and meetings with relevant Bank staff and other relevant stakeholders.
d. Coordinates and maintains regular and timely contacts and interaction with Requesters and Management throughout the investigation process.

Investigation methodology

The methods used by the Investigation Team for its fact-finding and analysis include:
a. Reviewing and researching Bank project documents and files. Management makes available to the Panel all available project documentation.
b. Visiting the borrowing country, project sites and project areas of impact.
c. Meeting with Requesters during visits.
d. Requesting or receiving information from the Requesters, affected people, government officials, project authorities, and others likely to have relevant information. The latter may include representatives of other development and UN organizations, non-governmental organizations and experts.
e. Interviews with individual Bank staff. Management enables the Panel to talk to staff involved with the project, both past and present.
f. Consulting scientific literature and publications relevant to the issues of harm raised in the Request.
g. Any other relevant methods the Team considers appropriate to the specific investigation.

Interaction with the Requesters

The Panel consults with the Requesters during the investigation process to ensure accuracy and completeness of available information, and to ensure that the Panel is updated on the status of any matters under investigation.

Interaction with Management

The Panel consults with Management during the investigation process, to ensure accuracy and completeness of available information, and to ensure that the Panel is updated on the status of any matters under investigation.

Interaction with the Borrower

The Panel and its Investigation Team brief the Executive Director representing the Borrower on the Panel’s investigation process and plans, and consult with the Borrower and the Executive Director representing the borrowing (or guaranteeing) country during the
investigation process to seek views and input that may be important to the Panel in carrying out its investigation. The Investigation Team meets with representatives of the borrower government during its visit to the country.

Additional aspects of the investigation process

62. The Panel’s investigation takes place independently of project preparation or implementation, and the Panel has no authority to delay or stop these processes.

63. On occasion, during the course of the investigation, the Panel may encounter situations that require urgent attention, for example actions that may result in imminent or irreversible harm and pose the risk of serious non-compliance with Bank policies. The Panel brings these matters promptly to the attention of the Board and Senior Management to help ensure that appropriate responsive action is considered and taken, without having to wait for the completion of the Panel’s investigation.

64. The existence of an investigation does not prevent Management from taking steps to address concerns raised by the Requesters during the course of the investigation. These developments will be taken into account by the Panel, as relevant, in its investigation.

65. When both the Inspection Panel and the Office of the Compliance Advisor/Ombudsman (CAO) receive a complaint regarding a project jointly financed by IBRD or IDA (with regard to the Panel), and IFC/MIGA (with regard to CAO), the Panel will coordinate with CAO to achieve efficiencies and avoid potential duplications, consistent with the mandate and responsibilities of each mechanism.

Collaboration with other accountability mechanisms

66. If the Panel receives a complaint that is also submitted to the independent accountability mechanism(s) of other international financial institutions relating to a co-financed project, the Panel will make its best efforts to coordinate with the accountability mechanism(s) of co-financier(s) to process the complaints in the most efficient and effective way possible. At all times, the cooperation must remain within the requirements and constraints of the mechanisms’ respective mandates, rules and procedures including requirements of confidentiality and disclosure of information. Building on past practice, and sharing of experience across the Independent Accountability Mechanisms Network, the elements of such cooperation will be set forth in a Memorandum of Understanding agreed between the Panel and the other mechanism(s).

The Investigation Report

9 The Compliance Advisor/Ombudsman (CAO) is the independent recourse mechanism for the International Finance Corporation (IFC) and Multilateral Investment Guarantee Agency (MIGA). The CAO responds to complaints from project-affected communities with the goal of enhancing social and environmental outcomes on the ground.

10 The Independent Accountability Mechanisms Network is a network of members and staff of the International Accountability Mechanisms (IAMs) who seek to identify and foster means of cooperation within their respective mandates, contribute to regular exchange of ideas and practices, and assist with institutional capacity-building in accountability as components of corporate governance. Its members meet periodically.
67. In general, the Investigation Report of the Panel includes, inter alia, the following elements:
   a. An Overview and/or Executive Summary of the Request for Inspection and the Panel’s main findings.
   b. A Table of Findings presenting the claims raised in the Request and the corresponding Panel findings and related observations regarding the Bank’s compliance or non-compliance.
   c. An analysis of relevant facts and information, and findings on issues of harm and compliance. If the Panel finds that an issue of alleged harm is not related to the Project or does not relate to a Bank policy or procedure, this will be stated in the report and the issue will not be further analyzed.
   d. The main report is divided into relevant chapters addressing the claims by the Requesters which constitute the focus of the investigation. For each alleged issue of harm the report will provide basic factual information on the link to the project, document the Panel’s findings with respect to the Bank’s action or omission and its compliance with relevant policies and procedures, and assess the causal link between the Bank’s non-compliance and the alleged harm.

Timeline for completing investigations

68. The Panel carries out investigations without undue delay. The Panel makes public an investigation plan within six weeks after an investigation is approved by the Board. The Panel seeks to complete its investigations within six months following completion of the investigation plan. Depending on the specific circumstances of the case at hand, the time frame may be longer, for instance in the case of particularly complex cases or when unforeseen events intervene, or it may be shorter, when for example an investigation is narrowly focused or calls for a more urgent consideration.

69. The final Investigation Report is submitted to the Board and conveyed to Management via the President. The Panel sends a copy to the Group Internal Audit (GIA).

3.5 Actions following an investigation, including the sharing of the report with the Requesters

70. This section addresses relevant actions in the Panel process that are or may be taken once the Panel completes its Investigation Report and submits it to the Board.

71. Following submission of the Investigation Report, the Panel shall share the report’s Table of Findings with the Requesters. The Bank also shall make the Panel’s full Investigation Report accessible in hard copy to Requesters at the nearest country office. The Requesters will be given the opportunity to read the report in the Bank’s country office during two consecutive working days, but may not remove the report, make photocopies, take pictures or reproduce the report or parts of it by any other means.

72. A confidentiality agreement shall be signed by the Requesters before they are provided
access to the Table of Findings and the full report. If the meeting is held off Bank premises in order to preserve the confidentiality of the Requesters, the modalities will be agreed between the Panel and Management.

73. The sharing of the Investigation Report is intended to allow Requesters to be more meaningfully involved in the consultations with Management on the development of the MAP.

Management actions following the Investigation Report

74. Within six weeks of receiving the Panel’s Investigation Report, Management submits to the Board the “Management Report and Recommendation in Response to the Inspection Panel Investigation Report” (MRR).

75. The MRR normally includes proposed actions in response to the Panel’s findings. A distinction is made between remedial efforts that Management can take on its own to address Bank failure, and a plan of action agreed between the Borrower and the Bank, in consultation with the Requesters, to improve project implementation.

76. When the MAP is presented with separate tables for Borrower and Bank Actions, the MAP actions are to be considered interdependent and the MAP a single instrument.

77. Management may also include in the MRR a proposal to submit to the Board periodic progress reports on the implementation of the remedial efforts and/or plan of action.

Panel report on consultations with Requesters

78. According to the Panel’s governing framework, Management will communicate to the Panel the nature and the outcomes of the consultations with the affected parties on the action plan agreed between the Borrower and the Bank. The Panel may submit to the Board, for its consideration, a written or verbal report on the adequacy of these consultations. The Panel’s reporting may be based on information available to the Panel by all sources, and the Panel may decide, in consultation with the Executive Director representing the Borrower, that a country visit is needed to be able to prepare its report accurately.

Board decision and public disclosure

79. Following Management’s submission of the MRR, the Board meets to consider the Panel’s Investigation Report and the MRR. In this meeting the Board decides whether to approve the plan of action that Management may have included in its report.

80. Within two weeks after the Board meeting, the Bank makes the Investigation Report and the MRR publicly available. At this time, the Panel promptly informs the Requesters of the actions approved by the Board, if any, and ensures that the Requesters receive a copy of the Panel's Report. The Panel makes the following information available on its website:
c. Information relating to the results of the investigation and the Board's decision.
d. Generally, a joint press release between the Panel and Management.

81. These documents are, to the extent possible, translated into the language of the Requesters.

Management Action Plan monitoring and MAP progress reports

82. Management shall be responsible for monitoring the implementation of the MAP. Management shall submit progress reports to the Executive Directors on the implementation of the MAP at such intervals as the Executive Directors may request in a particular case. A progress report shall summarize the status of implementation of the MAP in the period covered by the report, including actions completed, actions under ongoing implementation, and upcoming actions based on timelines included in the Management Action Plan. It also may include information on engagements undertaken during the reported period.

83. When Management submits its progress reports to the Board, the Panel makes these reports available on the Panel and Accountability Mechanism websites and provides them to the Requesters.

84. In order to better facilitate tracking of these progress reports by the Executive Directors and other stakeholders, Management will prepare and maintain two tables to track the submission and implementation of progress reports. The first table will include information regarding the timing of the progress reports on ongoing cases; the second table will show the progress on the implementation of each action agreed upon by the Executive Directors on a case-by-case basis. Management will submit these reports every six months to the Executive Directors and share them with the Panel for information prior to submission. As with Management progress reports, these tables will be made publicly available on the websites of the World Bank and Panel.

3.6 Verification of the implementation of Management Action Plans

85. The Executive Directors may approve, as an additional reassurance tool for avoiding reputational risks, independent risk-based proportionate verification of the implementation of the MAP by the Panel and/or Group Internal Audit (GIA). The modality adopted for such additional verification will be proportionate to the complexity and seriousness of the case.

86. The following principles apply for independent verification: (i) verification will focus solely on the Bank’s actions as outlined in the Management Action Plan, distinguishing between periodic tracking of progress and terminal verification; (ii) verification will assess the status (including completion) of specific Management actions included in the Management Action Plan based on appropriate evidence of implementation status; (iii) to ensure efficiency of the verification process, it is important to have a timeline for verification based on timelines of agreed actions to avoid premature review of actions; and (iv) there will be a role for the Panel and/or GIA during the verification process that is consistent with their expertise and institutional roles as laid out below.
Role of the Panel and GIA in verification

87. The Panel verifies the implementation of Management’s actions in the MAP that have been agreed between Management and the Borrower, designed to address harm that occurred as a result of the Bank’s noncompliance. GIA verifies Management’s actions in the MAP that are intended to address the Bank’s governance, policy and procedures, and other internal operational arrangements for its oversight of environmental and social risks of Bank projects.

Scope of verification

88. Verification by the Panel and GIA focuses on the Management actions related to the specific concerns that form the basis of the Board’s decision to authorize verification. In recommending independent verification to the Executive Directors, the Panel, with input from GIA, describes the situation in response to the specific concerns identified.

Proportionality criteria and verification modality

89. The framework for proportionality criteria and modalities for verification uses as a basis parameters that include: (i) urgency of redress, (ii) risk of repetitive harm, (iii) number and vulnerability of project-affected people, (iv) complexity of the case, and (v) risk of retaliation against Requesters.11

90. Based on the risk-based proportionality criteria, the modalities for verification and the above-mentioned roles, the Panel, with input from GIA, recommends to the Executive Directors whether there is a need for verification in light of specific concerns identified by the Panel and GIA, and if so, the scope and timeline for verification, and under what modality the Panel and/or GIA verifies the MAP.12

91. The risk-based proportionality criteria and modalities for verification are elaborated below: in cases of 6 to 8 positive indicators, the recommendation to verify MAP implementation includes a site visit; in cases of 3 to 5 positive indicators, the verification is desk-based; in cases of up to 2 positive indicators, no recommendation to verify MAP implementation is made.

Verification Recommendation

92. As set forth in paragraph 53 of the 2020 Panel Resolution, the Panel’s recommendation for verification, generally, is made after substantial implementation of the MAP or if the progress report indicates lack of implementation, at any stage of implementation. This process will avoid an automatic "one-size-fits-all" approach. Site visits will be minimized to usually not more than one. The modality adopted for such additional verification will be proportionate to the complexity and seriousness of the case.

93. In exceptional cases, upon the Panel’s recommendation, with input from GIA, the Executive Directors may discuss and assign verification at the stage of approval of the MAP or shortly after. When the Panel proposes such verification for Executive Directors’ consideration, it will include a recommendation on the timing of the verification. The circumstances are deemed exceptional based on the gravity of the harm.

94. The Panel makes the verification recommendation to the Executive Directors. The Panel recommendation includes input from GIA. GIA identifies, in coordination with the Panel, the actions within the MAP that it recommends to verify. The Panel seeks Management’s input on

\textsuperscript{13} The complexity of a case reflects the issues covered or where the types of harm experienced are multiple and/or of large variety.

\textsuperscript{14} The uniqueness of the issues provides weight to emerging issues where additional attention is required, and where learning can benefit the Bank.
the verification recommendation ahead of submission to the Executive Directors and includes it as an annex to the recommendation.

95. The verification recommendation includes the modality of the Panel’s verification and GIA’s approach for verification. If the Panel’s recommended modality requires a field visit, the Panel includes this in its recommendation.

96. The Panel’s verification recommendation is considered by the Executive Directors on an absence of objection basis. If the Executive Directors approve the independent verification, the Panel discloses the recommendation for verification on its website and informs the Requesters.

**Verification Process**

97. During verification, the Panel reviews the implementation status of Management’s actions set forth in the MAP as identified in the verification recommendation approved by the Executive Directors. The Panel reports on the status of such actions.

98. The verification focuses solely on Management’s actions and assesses the status of such actions. The verification considers Management’s reporting of the status of actions as described in the MAP Progress Report and involves the description of the situation in response to the specific concerns identified when recommending verification to the Executive Directors.

99. Once GIA has completed its verification, a draft Assurance Review report is shared with relevant stakeholders from Management and the Panel for feedback and comments. In addition, GIA provides the Panel with a verification memo containing a high-level summary of the Assurance Review outcomes and the status of MAP actions verified for public disclosure. This is necessary as Assurance Review reports are confidential.

100. At the end of the verification process, the Panel will submit, for information, its verification report to the Executive Directors and the President. The Panel’s verification report will incorporate GIA’s verification memo if and when available, without amendments. In response to the Panel’s final verification report, Management will submit its follow-up, indicating its views on Panel’s findings to the Executive Directors. This is the case both for desk-based verification and verification with a field visit. Management follow-up reports that suggest modifications or adjustments to the MAP should be discussed and approved by the Board. Both the Panel’s verification report and Management’s follow-up will be made publicly available on websites of the Inspection Panel and the World Bank Accountability Mechanism.

101. The flowchart below set out the process and steps to be followed if the Panel proposes and the Executive Directors approve verification.

4 OUTREACH AND LEARNING FROM THE PANEL PROCESS

4.1 Raising awareness of the Panel and the Panel process

102. A prerequisite for the effective functioning of the Panel as an accountability mechanism for the Bank is that this recourse option is known to people whose rights and interests may be affected by Bank projects. As called for by the Board, the Panel works with Management to help make the Panel better known in borrowing countries. This includes the presentation of the Panel on the Bank’s website, and may include information about the Panel in relevant project documents and training of Bank operational staff on the Panel process.

103. Management will make significant efforts to make the Inspection Panel better known in borrowing countries but will not provide technical assistance or funding to potential Requesters.

104. Public information materials are produced in several languages. The Panel ensures that user-friendly information is easily retrievable through the internet and social media or other means of informational dissemination, as appropriate. The Panel organizes in-country and virtual outreach events, often in collaboration with other independent accountability mechanisms and civil society organizations. The Panel also organizes meetings and participates in relevant conferences and civil society events.

4.2 Advisory services and facilitation of learning from Panel cases

105. The extensive range of the Panel’s investigation and other reports represents an independent assessment of the Bank’s application of key operational policies and procedures in challenging circumstances, which may be useful to the Board and Management in establishing good development practice and in identifying and eliminating factors that lead to harm.

106. The Panel may provide advisory services in form of lessons from its cases through its different reports and publications. The Panel’s advisory function shall not extend to providing specific operational guidance, or advice on the merits of a specific Bank policy and procedure.

107. Additionally, the Panel presents systemic issues and reflections discerned from its work to the Board, Management, and the public via an Annual Report and other publications as well as through meetings with the Board and Management as and when requested. The Panel may also present such observations to the Board’s Committee on Development Effectiveness in its periodic meetings.

108. The Panel hosts meetings and events to discuss outcomes of its investigations and other reports with Management and relevant stakeholders so as to facilitate institutional learning.
